FT5000 XP

An ATM that offers financial institutions greater control, integration and customized screens.

Triton delivers again with the FT5000^{XP}, a versatile through-the-wall ATM that offers high performance for a surprisingly low investment.

The FT5000^{XP} is a favorite among financial institutions, with its open architecture and support for industry standard features such as emulation and TCP/IP communications. In addition, Triton's Prism™ ATM software provides banks and credit unions with a simple HTML interface for customized screen content.

This revolutionary configuration offers vendor independence through the XFS specifications.

The PC-based FT5000^{XP} includes a PCI-compliant Encrypting PIN Pad (EPP), rear access, and is Triple DES compliant. This amazingly affordable solution offers the flexibility of drive-up or walk-up placement with two to four cassettes based on your needs. And as always, you can count on the reliable operation that has made Triton a leader in the industry.
